

T.C.

**MUĞLA SITKI KOÇMAN UNIVERSITY**

**FACULTY of MEDICINE**

**2025-2026 ACADEMIC YEAR**

**PHASE 5 ENGLISH MEDICINE PROGRAM**

**COURSE of ANESTHESIOLOGY and REANIMATION**

**DEAN** : Prof. Dr. Süleyman Cüneyt KARAKUŞ  
**VICE DEANS** : Prof. Dr. Cem ŞAHİN  
Prof. Dr. Nesrin FİLİZ BAŞARAN  
**CHIEF COORDINATOR** : Prof. Dr. Emine Neşe YENİÇERİ  
**PHASE 5 COORDINATOR** : Doç. Dr. İbrahim Önder YENİÇERİ  
**PHASE 5 ASSISTANT COORDINATORS** : Prof. Dr. Ozan GÖKDOĞAN  
Doç. Dr. Emine Tuğba ALATAŞ  
Doç. Dr. Ahmet KADERLİ

**Department Responsible for Course** : Department of Anesthesiology and Reanimation  
**Course Type** : Compulsory  
**Duration of the Course** : 2 weeks  
**Course Code** : MED 5027  
**ECTS** : 3  
**Head of the Department** : Prof. Dr. Bakiye UĞUR

| Teaching Staff                        | Theoretical Lesson Hours | Practical Lesson Hours |
|---------------------------------------|--------------------------|------------------------|
| Prof. Dr. Bakiye UĞUR                 | 8                        | 20                     |
| Prof. Dr. Başak ALTIPARMAK            | 8                        | 20                     |
| Assoc. Prof. Dr. Melike Korkmaz TOKER | 8                        | 20                     |
| Assoc. Prof. Dr. Canan GÜRSOY         | 5                        | 20                     |
| Asst. Prof. Dr. Sinan PEKTAŞ          | 7                        | 20                     |
| Asst. Prof. Dr. Leyla ŞAHAN           | 4                        | 20                     |

**Coordinator of the Course Education Program** : Assoc. Prof. Dr. Canan GÜRSOY - Asst. Prof. Dr. Sinan PEKTAŞ  
**Coordinator of the Course Examinations** : Assoc. Prof. Dr. Canan GÜRSOY- Asst. Prof. Dr. Sinan PEKTAŞ

**Coordinator of Course Assessment and Evaluation**  
Dr. Sinan PEKTAŞ

: Assoc. Prof. Dr. Canan GÜRSOY- Asst. Prof.

# ANESTHESIOLOGY ve REANIMATION (PHASE 5)

## LEARNING AIM(S)

|   |                                                                                                                                                                                  |
|---|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | In this course, it is aimed that the students gain knowledge and skills about anesthesia applications and intensive care patient follow-up within the scope of the National CEP. |
|---|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## LEARNING OBJECTIVE(S)

|    |                                                                                                                      |
|----|----------------------------------------------------------------------------------------------------------------------|
| 1  | To be able to prepare patients for surgery.                                                                          |
| 2  | To be able to explain and apply monitoring.                                                                          |
| 3  | To be able to use airway equipment and endotracheal intubation, provide airway in patients with respiratory failure. |
| 4  | To be able to perform cardiopulmonary resuscitation in a cardiac arrest patient.                                     |
| 5  | To be able to administer first aid and, if necessary, advanced life support to the traumatized patient.              |
| 6  | To be able to explain the physiopathology of shock and to apply emergency treatment approaches.                      |
| 7  | To be able to plan treatment for fluid and electrolyte balance disorders.                                            |
| 8  | To be able to plan acute and chronic pain management.                                                                |
| 9  | To be able to plan cancer pain treatment.                                                                            |
| 10 | To be able to explain the use and complications of blood and blood products.                                         |
| 11 | To be able to explain the diagnosis of brain death and donor care.                                                   |
| 12 | To be able to inform and guide patients and their relatives about general and regional anesthesia.                   |

## INTENDED LEARNING OUTCOME(S)

|   |                                                                                                            |
|---|------------------------------------------------------------------------------------------------------------|
| 1 | Can prepare patients for surgery.                                                                          |
| 2 | Can explain and apply monitoring.                                                                          |
| 3 | Can use airway equipment and endotracheal intubation, provide airway in patients with respiratory failure. |
| 4 | Can perform cardiopulmonary resuscitation in a cardiac arrest patient.                                     |

|    |                                                                                               |
|----|-----------------------------------------------------------------------------------------------|
| 5  | Can administer first aid and, if necessary, advanced life support to the traumatized patient. |
| 6  | Can explain the physiopathology of shock and can apply emergency treatment approaches.        |
| 7  | Can plan treatment for fluid and electrolyte balance disorders.                               |
| 8  | Can plan acute and chronic pain management.                                                   |
| 9  | Can plan cancer pain treatment.                                                               |
| 10 | Can explain the use and complications of blood and blood products.                            |
| 11 | Can explain the diagnosis of brain death and donor care.                                      |
| 12 | Can inform and guide patients and their relatives about general and regional anesthesia.      |
