

**MUĞLA SITKI KOÇMAN UNIVERSITY FACULTY of MEDICINE
PHASE 6
ENGLISH MEDICINE PROGRAM**

**COURSE of Anesthesiology and
Reanimation**

COURSE GUIDEBOOK

PREFACE

Dear Students,

Welcome to the Anesthesiology and Reanimation course which is an important part of your education.

This guide describes what you will learn and perform during your course, the rules you must follow in our clinic, and the working conditions. We wish you all success with the belief that this guide will guide you sufficiently through your course studies.

**Department of
Anesthesiology and Reanimation**

GENERAL INFORMATION on COURSE

Course Title	: Anesthesiology and Reanimation
Main Department of Course	: Surgical Medical Sciences
Department Responsible for Course	: Anesthesiology and Reanimation
Course Code	: MED-6508
Course Topic Code	: MED
Course Type	: Elective
Duration of the Course	: 1 month
Teaching Method of the Course	: Formal
ECTS	: 5
Language	: English

TEACHING METHODS-TECHNIQUES

a. Applied training methods

- ✓ Inpatient bedside (service) trainings / Inpatient bedside (service) practical applications
- ✓ Participation in outpatient services / Practical applications at the outpatient clinic
- ✓ Bedside Training / Practical Practices at the Bedside
- ✓ Instructor visits (Story taking, file preparation and presentation, interactive discussion, monitoring)
- ✓ Operating room applications
- ✓ Medical record keeping and evaluation practices
- ✓ Participation in Branch Informatics Applications

b. Interactive learning activities:

- ✓ Meetings, panels, group discussions,
- ✓ Case-based discussion sessions, problem-based training sessions with small groups, critical situation discussions, councils, gamification, structured case discussions,
- ✓ Readings and interpretations of works/articles

c. Vocational Skills applications

- ✓ The minimum number of practices/studies required for reinforcing the proficiency gained in the previous education periods in the defined vocational skills is determined and it is ensured that each intern does it.

d. Teamwork

e. Independent learning

- ✓ Independent working hours

f. Other Educational Events

- ✓ Clinical Case Reports
- ✓ Article Presentations
- ✓ Seminar/Lesson Presentations
- ✓ Literature Presentations
- ✓ Research and Presentation

PHYSICAL SPACES

Teaching Activity	Physical Space	Explanation
Theoretical lessons	Morphology Building	
Inpatient bedside practice	Muğla Training and Research Hospital	Anesthesiology Intensive Care Unit
Policlinic	Muğla Training and Research Hospital	Algology Clinic
Case analysis		
Problem-based teaching		
Special audit applications	Muğla Training and Research Hospital	
Private field applications	Muğla Training and Research Hospital	

RELATED LEGISLATION

AIM(S) of the COURSE

1	In this course, it is aimed that the students learn the knowledge and skills about anesthesia applications and intensive care patient follow-up.
2	In this course, it is aimed that the students get to know the patients with respiratory failure and learn the basic treatment approaches, use the necessary tools and equipment in opening the airway, and especially gain the ability of endotracheal intubation independently. In addition, this course aims to provide students with information on basic approaches to patients with acute and chronic pain.

OBJECTIVE(S) of the COURSE

1	To be able to prepare the patients for surgery.
2	To be able to explain and apply monitoring.
3	To be able to provide airway in the patient with respiratory failure.
4	To be able to use airway equipment and endotracheal intubation.
5	To be able to perform cardiopulmonary resuscitation in a cardiac arrest patient.
6	To be able to administer first aid and, if necessary, advanced life support to the traumatized patient.
7	To be able to explain the physiopathology of shock and to be able to apply emergency treatment approaches.
8	To be able to plan treatment for fluid and electrolyte balance disorders.
9	To be able to plan acute and chronic pain management.
10	To be able to plan cancer pain treatment.
11	To be able to explain the use and complications of blood and blood products.
12	To be able to explain the diagnosis of brain death and donor care.
13	To be able to inform and guide patients and their relatives about general and regional anesthesia.

INTENDED LEARNING OUTCOME(S)

1	Can prepare the patients for surgery.
2	Can explain and apply monitoring.
3	Can provide airway in the patient with respiratory failure.
4	Can use airway equipment and endotracheal intubation.
5	Can perform cardiopulmonary resuscitation in a cardiac arrest patient.
6	Can administer first aid and, if necessary, advanced life support to the traumatized patient.
7	Can explain the physiopathology of shock and can apply emergency treatment approaches.
8	Can plan treatment for fluid and electrolyte balance disorders.
9	Can plan acute and chronic pain management.
10	Can plan cancer pain treatment.
11	Can explain the use and complications of blood and blood products.
12	Can explain the diagnosis of brain death and donor care.
13	Can inform and guide patients and their relatives about general and regional anesthesia.

DUTIES and RESPONSIBILITIES OF STUDENTS and OTHER ISSUES

ASSESSMENT and EVALUATION

Phase 6 Student Internship Success Criteria: (All criteria must be met)

1. The student must fulfill the internship continuity criteria.
2. Candidate Physician Qualification Certificate scoring of 60 and above is considered successful.
3. Candidate Physician Logbook scoring of 60 and above is considered successful.

Phase 6 Student Internship Success Criteria: (All criteria must be met) <ol style="list-style-type: none"> 4. The student must fulfill the internship continuity criteria. 5. Candidate Physician Qualification Certificate scoring of 60 and above is considered successful. 6. Candidate Physician Logbook scoring of 60 and above is considered successful. 		
* Half of the Candidate Physician Internship Logbook Score must be reflected in the B field.		

CANDIDATE PHYSICIAN INTERNSHIP LOGBOOK

MUGLA SITKI KOCMAN UNIVERSITY MEDICAL SCHOOL ANESTHESIOLOGY AND REANIMATION CANDIDATE PHYSICIAN INTERNSHIP LOGBOOK				
Student's name and surname:		Number:		Performed
Beginning:/...../.....		End:/...../.....		
		Level		
1.	Patient file preparation	4		
2.	Taking general and problem-oriented history	4		
3.	Systematic physical examination	4		
4.	Evaluation of general condition and vital signs	4		
5.	Interpreting the results of screening and diagnostic examinations	3		
6.	Differential Diagnosis			
7.	Reading and evaluating direct radiographs	3		
8.	Requesting rational laboratory and imaging examination	4		
9.	Applying the principles of working with biological material	4		
10.	Obtaining a biological sample from the patient	3		
11.	Taking the laboratory sample under appropriate conditions and delivering it to the laboratory	4		
12.	Providing decontamination, disinfection, sterilization, antisepsis	4		
13.	Hand washing	4		
14.	Opening vascular access	4		
15.	Im, iv, sc, id injection	4		
16.	Preparing the drugs to be applied correctly	3		
17.	Administering oral, rectal, vaginal, and topical drugs	3		
18.	Applying the principles of rational drug use	4		
19.	Treatment planning and prescription	4		
20.	Preparing patient discharge report	4		
21.	Properly referring the patient	4		
22.	Providing sufficient and understandable information to the patient and his/her relatives about the disease	4		
23.	Providing accurate and adequate information to the patient and/or patient relatives about possible interventions/treatment options, obtaining consent for treatment	4		
24.	Communicating effectively with the work team, colleagues, and trainers	4		
25.	Internship-specific item*			
26.	Internship-specific item*			
27.	Internship-specific item*

Phase 6 Student Internship Success Criteria: (All criteria must be met)

1. The student must fulfill the internship continuity criteria.
2. Candidate Physician Qualification Certificate scoring of 60 and above is considered successful.
3. Candidate Physician Logbook scoring of 60 and above is considered successful.

***The Department can remove the item(s) from the Internship Logbook and/or add the item(s) specific to the internship by specifying the level to the Internship Logbook. It is recommended that the department check that all NCEP-2020 Basic Medicine Practices and levels related to the internship are stated in the Internship Logbook.**

LEARNING LEVEL OF BASIC MEDICAL PRACTICES*	
Level	Explanation
1	Knows how the application is done and explains the results to the patient and / or their relatives
2	Makes the application in accordance with the guide / directive in an emergency
3	Makes the application* in uncomplicated, common, cases/cases
4	Makes the application** including complex situations/phenomenons
*Denotes the minimum level of performance, and therefore learning, that a physician who graduated from the faculty of medicine should exhibit during basic medicine practices. It is determined separately for each skill/application in the minimum level list. The faculties ensure that each student is able to perform the medical practice in question at the minimum level determined during the education period they apply.	
** Makes the preliminary evaluation/evaluation, creates, and implements the necessary plans, and informs the patient and their relatives/society about the process and its results.
