PHASE 6
ENGLISH MEDICINE PROGRAM**

COURSE of Psychiatry
COURSE GUIDEBOOK

PREFACE

Dear Students,

Welcome to the psychiatry course which is an important part of your education.

This guide describes what you will learn and perform during your course, the rules you must follow in our clinic, and the working conditions. We wish you all success with the belief that this guide will guide you sufficiently through your course studies.

Department of Psychiatry

GENERAL INFORMATION on COURSE

Course Title	: Psychiatry
Main Department of Course	: Internal Medical Sciences
Department Responsible for Course	: Psychiatry
Course Code	: MED-6007
Course Topic Code	: MED-
Course Type	: Required
Duration of the Course	: 1 month
Teaching Method of the Course	: Formal
ECTS	: 5
Language	: English

TEACHING METHODS-TECHNIQUES

a. Applied training methods

- ✓ Inpatient bedside (service) trainings / Inpatient bedside (service) practical applications
- ✓ Participation in outpatient services / Practical applications at the outpatient clinic
- ✓ Bedside Training / Practical Practices at the Bedside
- ✓ Instructor visits (Story taking, file preparation and presentation, interactive discussion, monitoring)
- ✓ Operating room applications
- ✓ Medical record keeping and evaluation practices
- ✓ Participation in Branch Informatics Applications

b. Interactive learning activities:

- ✓ Meetings, panels, group discussions,
- ✓ Case-based discussion sessions, problem-based training sessions with small groups, critical situation discussions, councils, gamification, structured case discussions,
- ✓ Readings and interpretations of works/articles

c. Vocational Skills applications

- ✓ The minimum number of practices/studies required for reinforcing the proficiency gained in the previous education periods in the defined vocational skills is determined and it is ensured that each intern does it.

d. Teamwork

e. Independent learning

- ✓ Independent working hours

f. Other Educational Events

- ✓ Clinical Case Reports
- ✓ Article Presentations
- ✓ Seminar/Lesson Presentations
- ✓ Literature Presentations
- ✓ Research and Presentation

PHYSICAL SPACES

Teaching Activity	Physical Space	Explanation
Theoretical lessons	Morphology Building	
Inpatient bedside practice	Training and Research Hospital	<u>-3st floor- psychiatry inpatient clinic</u>
Policlinic	Training and Research Hospital	<u>1st floor- psychiatry and addiction polyclinics</u>
Case analysis	Training and Research Hospital - Morphology Building	
Problem-based teaching		
Special audit applications	Training and Research Hospital	
Private field applications	Community Mental Health Center - Alcohol and Substance Research and Treatment Clinic

AIM(S) of the COURSE

1	In this course, it is aimed that the students have sufficient knowledge about the diagnosis and treatment of basic psychiatric diseases.
----------	--

OBJECTIVE(S) of the COURSE

1	To be able to explain mental illnesses, drug treatments, side effects of treatments in primary health care institutions.
2	To be able to provide mental health services in primary health care institutions.
3	To be able to recognize the early signs of deterioration in mental states and to be able to understand the importance of treatment.
4	To be able to recognize the physical, cognitive, behavioral, and emotional symptoms that show that the control of the emotional reactions of the person is impaired.
5	To be able to provide training on stress management in primary health care institutions and their relatives.
6	To be able to choose the patients to be referred by understanding the relationship and harmony between primary, secondary, and tertiary mental health services.
7	To be able to explain the physiological and psychological effects of addictive substances (alcohol, substance, etc.).
8	To be able to gain the ability to recognize, manage and treat the psychiatric emergency patient.
9	To be able to explain the active ingredients and prospectus information of drugs used in psychiatric treatment.

INTENDED LEARNING OUTCOME(S)

1	Can explain mental illnesses, drug treatments, side effects of treatments in primary health care institutions.
2	Can provide mental health services in primary health care institutions.
3	Can recognize the early signs of deterioration in mental states and can understand the importance of treatment.
4	Can recognize the physical, cognitive, behavioral, and emotional symptoms that show that the control of the emotional reactions of the person is impaired.
5	Can provide training on stress management in primary health care institutions and their relatives.
6	Can choose the patients to be referred by understanding the relationship and harmony between primary, secondary, and tertiary mental health services.
7	Can explain the physiological and psychological effects of addictive substances (alcohol, substance, etc.).
8	Can gain the ability to recognize, manage and treat the psychiatric emergency patient.
9	Can explain the active ingredients and prospectus information of drugs used in psychiatric treatment.

DUTIES and RESPONSIBILITIES OF STUDENTS and OTHER ISSUES

*The Department can remove the item(s) from the Internship Logbook and/or add the item(s) specific to the internship by specifying the level to the Internship Logbook. It is recommended that the department check that all NCEP-2020 Basic Medicine Practices and levels related to the internship are stated in the Internship Logbook.			

LEARNING LEVEL OF BASIC MEDICAL PRACTICES*	
Level	Explanation
1	Knows how the application is done and explains the results to the patient and / or their relatives
2	Makes the application in accordance with the guide / directive in an emergency
3	Makes the application* in uncomplicated, common, cases/cases
4	Makes the application** including complex situations/phenomenons
*Denotes the minimum level of performance, and therefore learning, that a physician who graduated from the faculty of medicine should exhibit during basic medicine practices. It is determined separately for each skill/application in the minimum level list. The faculties ensure that each student is able to perform the medical practice in question at the minimum level determined during the education period they apply.	
** Makes the preliminary evaluation/evaluation, creates, and implements the necessary plans, and informs the patient and their relatives/society about the process and its results.
